

FEEDBACK

How did I do today?

Great session - children's contributions, author process, building confidence by telling them how a story becomes theirs, then opportunity to carry on story. Flawed well - well structured / organised!

Did you find the session beneficial?

Yes - It was so helpful to see and hear about editing work and see what that looked like.

Loved that they could take over story by drawing.

Great encouragement + sharing of successful work.

Is there room for improvement? If yes, please explain.

Maybe see you live editing? Or live drawing along with story. But I don't feel those were missing - just possible additions.
